After selecting the per you love, we also need to set a good name for the pet. Press A key to select the character and press B key to confirm.

V.Check the state of the pet

In the diary, the player could check the state of the pet at any time. You could see the hunger, weight, cleanliness, intimacy and intelligent value here clearly.

Diary

Status

Hunger

Cleanliness

Pets are not full enough or clean, which is a direct impact on the health of pets. Small owners must be careful not to let pets get sick. When a pet is ill, intimacy will decline.

If you don't take good care of it, your pet may run away from home sadly and become a stray animal.

VI.Badge of honor will witness every step you take with your pet

Pets are getting smarter and smarter, and you will also get a report card as the owner.

Cute

Ease

Clever

Achievement

There are 15 kinds of achievement badges waiting for you to get in the game.Before you get the badge, the name of the badge will become "? ? ? "

VII.Daily life of the pet

If you care about the pet, you should pay attention to its various reactions. Our pet will also be hungry, will want to sleep and will even get sick.

In general, small pets take a leisurely walk.

Occasionally the pet will sleep, but you can also wake it up and let it play with you.

Eat satisfied and naturally need to be excreted. It stinks! Clean your pet quickly.

Oh dear! Sick! At this point, you can choose treatment from the care menu to treat pets.

Care Cure

By feeding, players can feed different foods to pets as they like.

Feed Clean

Play and Train

I.Play

1.Pet jump:

Lead the pet to get small heart easily. Need to avoid the attack that suddenly appears in the sky. Game operation: A and C control the direction; B take off jump.

2.Eat the fruit:

As long as select the corresponding fruit in the selection box and then confirmed, the same type of fruit appearing on the screen can be eliminated. Game operation: A and C select the fruit; B confirm the eliminate the fruit.

II.Train

Train

To improve the intelligence of pets, you need to train them. As the intelligence value of a pet becomes higher and higher, he will receive more and more training programs.

Handshake

After the pet hand out the hand, the owner needs to press the A, B or C key corresponding to the direction of the pet. If you press the wrong key once, it will be considered a training failure.

Turn

According to the hint, order the pet to turn in correct direction. Do not turn too many times, and the pet would feel faint.

Tumble

When the pet jumps, tumbles and lands, please press B key at an appropriate time to make the pet complete the action.

Flying disc

When the strength slot is in the right range, presses the B key to throw the flying disc, and small pet will successfully catch the flying disc! This project tests the cooperation between the owner and the pet.

Heading

Press B key at an appropriate time, so that the pet can head. Although the content is easy, this trainning is the most difficult one.

When the pet shakes its head and don't want to have a training, you could try for many time patiently, till the pet listen to you and receive a training. Thus, the success rate will be greatly enhanced.
